

Responding with an early help approach to the needs of children and families in Leeds

Early help

- Early in the life of the problem - whatever the age of the child or young person
- Early to respond when problems emerge, or re-emerge
- Support in school, home and community through a graduated approach
- Help to prevent concerns getting worse and avoid the need for statutory intervention

Right conversations,
right people,
right time

Early help is our partnership approach when responding to a range of individual social, health and educational issues, providing support to children, young people and their families as soon as problems emerge or re-emerge
